PROFESSIONAL EXPERIENCE

Backend Trainee, FunctionUp

05/2022 – present | Delhi, India

Backend Developer Trainee at Function Up 18 July 2022 to present

- Trained in Backend Development using M.E.R.N
- Competent Working With REST-API & Git.
- Understanding of Client Server Architecture.
- Understand caching fundamentals and familiar with Redis.
- Skilled in teamwork, owning tasks, and timely deliveries.

Participated in various coding competitions organized by Function Up on platforms like Leetcode and Code Zinger

Founder and Teacher of XELLENT Coaching Center

06/2019 – 05/2022 | Delhi

I used to teach Math-Science for 9th-10th and some civil engineering subjects because I am very sound in making people understand as well as handle and guide other teachers here.

PROJECTS

Banking-System

Stack : M.E.R.N , JavaScript, Redis, AWS-S3

Overview : In this website where an account holder can open A/C and perform transactions and can use the facilities provided by Bank.

E-Commerce Websites

Stack : JavaScript, M.E.R.N, AWS-S3, Bcrypt, JWT

Overview : This is the website where a seller can list their product and consumer (buyer) can search, filter, place and modify the orders.

Book-Management

Stack : JavaScript, M.E.R.N, AWS-S3

Overview : Book management project was based on a book review and book rating site, APIs for users, books and reviews

URL-Shortner

Stack : - JavaScript, M.E.R.N, AWS-S3, Redis

Overview : User can request long URL and they will get short URL in response like tinnyurl.com. Also implemented a caching solution.

Mini-Blogging-Site

Stack : - JavaScript, M.E.R.N, AWS-S3, JWT

Overview : - Bloggers register to website and post their blogs then readers visit and get specific information and can read those blogs.

Open-to-Intern

Stack : JavaScript, M.E.R.N

Overview : This is platform on which recruiters and college students come and meet select each other as per their requirements.
